Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representatives discussed proposed claim language and stated that none of the prior art teachings disclose the "selected portions being less than an entirety of a corresponding frame packet" and the "simultaneously concatenating only the selected portions of packet data from each of the plurality of frame packets into a concatenated bit field". The aforementioned proposed claim language appears to overcome the prior rejection, however, more consideration and search would be required.
